INDEPENDENT ACCOUNTANT'S REVIEW REPORT

Board of Directors
Redwood City Education Foundation

Report on the Financial Statements

We have reviewed the accompanying financial statements of Redwood City Education Foundation, which comprise the statement of financial position as of July 31, 2025, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

We are required to be independent of Redwood City Education Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our review.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Net change in cash and cash equivalents		170,340
Cash and cash equivalents - beginning of year		1,334,545
Cash and cash equivalents - end of year	$	1,504,885

The accompanying notes are an integral part of these financial statements.

NOTE 1 - PRINCIPAL ACTIVITIES AND SIGNIFICANT ACCOUNTING POLICIES

The Foundation and nature of activities: The Redwood City Education Foundation (the Foundation) is a 501(c)(3) nonprofit Foundation benefiting students of the Redwood City public schools. Believing that a quality education inspires children to work toward a successful future, the Foundation provides music education, innovative teaching mini-grants and outdoor education that encourage children to learn. In existence since 1983, it has an eighteen-member volunteer board of directors. The major activity is fund-raising to support the following programs: music education, outdoor education, innovative teaching mini-grants, health and wellness programs. The Foundation's support comes primarily from individual donors' contributions, fundraising events and various government and private foundation grants. The foundation is a nonprofit Foundation as described in section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes.

Basis of Presentation

The financial statements are presented using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP) for not-for-profit entities (FASB Topic 958, ASU 2016-14).

Cash and Cash Equivalents

The Foundation considers all cash and highly liquid financial instruments with original maturities of three months or less, which are neither held for nor restricted by donors for long-term purposes, to be cash and cash equivalents. Cash and highly liquid financial instruments restricted to building projects, endowments that are perpetual in nature, or other long-term purposes are excluded from this definition, as applicable.

Receivables and Credit Policies

Accounts receivable consist primarily of non-interest-bearing amounts due from program support services. Management determines, when needed, an allowance for uncollectable accounts receivable based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Accounts receivables are written off when deemed uncollectable. As of July 31, 2025, there were no accounts receivable balances reported on, nor allowance for doubtful accounts related to accounts receivable.

Promises to Give and Grants Receivable

The Foundation records unconditional promises to give and grants receivable that are expected to be collected within one year at net realizable value. Unconditional promises to give and grants expected to be collected in future years are initially recorded at fair value using present value techniques incorporating risk-adjusted discount rates designed to reflect the assumptions market participants would use in pricing the asset. In subsequent years, amortization of the discounts is included in contribution revenue in the statements of activities. Management determines an allowance for uncollectable promises to give and grants receivable based on historical experience, an assessment of economic conditions, and a review of subsequent collections. Promises to give and grant receivable are written off when deemed uncollectable. As of July 31, 2025, the allowance for uncollectable accounts was zero and no discounts had been applied as there were no outstanding grants receivable.

Investments

The Foundation records investment purchases at cost, or if donated, at fair value on the date of donation. Thereafter, investments are reported at their fair values in the statements of financial position. Net investment return/(loss) is reported in the statements of activities and consists of interest and dividend income, realized and unrealized capital gains and losses, less external and direct internal investment expenses.

Property and Equipment

The Foundation records property and equipment additions at cost, or if donated, at fair value on the date of donation. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets of 3 to 5 years. When assets are sold or otherwise disposed of, the cost and related depreciation or amortization are removed from the accounts, and any resulting gain or loss is included in the statements of activities. Costs of maintenance and repairs that do not improve or extend the useful lives of the respective assets are expensed currently. Management did not review the carrying values of property and equipment for impairment because there were none reported in the financial statements as of July 31, 2025.

Net Assets

Net assets, revenues, gains, and losses are classified based on the existence or absence of donor or grantor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Net Assets Without Donor Restrictions – Net assets available for use in general operations and not subject to donor (or certain grantor) restrictions.

Net Assets With Donor Restrictions – Net assets subject to donor-imposed (or certain grantor-imposed) restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Revenue Recognition - Contracts with Customers Accounted for in Accordance with ASC 606

The Foundation recognizes revenue when it satisfies a performance obligation by transferring a promised good to, or performing a service for, a customer. The amount of revenue recognized reflects the consideration the Foundation expects to receive in exchange for satisfying distinct performance obligations. If a performance obligation does not meet the criteria to be considered distinct, the Foundation combines it with other performance obligations until a distinct bundle of goods or services exists. Performance obligations are satisfied over time and the related revenue is recognized as services are rendered. The Foundation management expects that the period between when the Foundation transfers goods and services to their customers and when the customers pay for those goods and services will be one year or less. Therefore, the Foundation elected the practical expedient not to adjust the promised amount of consideration for the effects of a significant financing component. Invoices resulting from the Foundation's contracts with customers are generally due within 30 days of the invoice date.

Revenue Recognition Accounted for in Accordance with ASC 605: Topic 958 Not for Profit Entities

Grants
Grants awarded by federal, state or local agencies, or passed through to the Foundation from another donor that received similar grants, are generally considered nonreciprocal transactions restricted by the awarding agency for certain purposes. Revenue is recognized when qualified expenses are incurred and conditions under the grant agreement are met.

Contribution Revenue
The Foundation receives support from individuals, corporations, and other nonprofit organizations in support of its mission. Contribution revenue is recognized at fair value on the earlier of the receipt of cash or an unconditional promise to give. From time to time, the Foundation receives promises to give that have certain conditions such as meeting specific performance-related barriers or limiting the Foundation's discretion on use of the funds. Other contributions may have revocable features to the promises to give. Such conditional promises to give are recognized when the conditions are substantially met.

Donated Services and In-Kind Contributions

Volunteers contribute significant amounts of time to the Foundation's program services, administration, and fundraising and development activities; however, the financial statements do not reflect the value of these contributed services because they do not meet recognition criteria prescribed by generally accepted accounting principles. Contributed goods are recorded at fair value at the date of donation. The Foundation records donated professional services at the respective fair values of the services received, when applicable

Advertising Costs

Advertising costs are expensed as incurred and totaled $198 during the year ended July 31, 2025.

Functional Allocation of Expenses

The costs of program and supporting services activities have been summarized on a functional basis in the statements of activities. The statements of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited, such as payroll, payroll related expenses, office expenses and facility expenses.

Income Taxes

The Foundation is organized as a California nonprofit corporation and has been recognized by the IRS as exempt from federal income taxes under IRC Section 501(a) as Foundations described in IRC Section 501(c)(3) and Section 23701(d) of the California Code, qualifies for the charitable contribution deduction under IRC Sections 170(b)(1)(A)(vi). The Foundation is annually required to file a Return of Foundation Exempt from Income Tax (Form 990) with the IRS. In addition, the Foundation is subject to income tax on net income that is derived from business activities that are unrelated to its exempt purpose. Management has determined that no such income was generated during the year ended July 31, 2025. Accordingly, no provision has been made for income taxes in the Statement of Activities.

Concentrations

For the year ended July 31, 2025, contributions from corporations, individuals, and foundations comprised 19%, 23%, and 45% of total revenue, respectively.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Foundation to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates, and those differences could be material.

Financial Instruments and Credit Risk

The Foundation manages deposit concentration risk by placing cash and money market accounts with financial institutions believed by us to be creditworthy. At times, amounts on deposit may exceed insured limits or include uninsured investments in money market mutual funds. To date, the Foundation has not experienced losses in any of these accounts. Credit risk associated with accounts receivable and promises to give is considered to be limited due to high historical collection rates and because substantial portions of the outstanding amounts are due from Foundations, individuals, and foundations supportive of the Foundation's mission. Investments are simplified for security versus returns within money market accounts and monitored by management and the Board of Directors. Annual fair value fluctuations have been minimized by investing on money market accounts where cost equals fair value. The Foundation believes that its investment strategies are prudent for the long-term welfare of the Foundation.

As of July 31, 2025, the carrying amounts of cash deposits in banks considered to be cash equivalents totaled $1,504,885. The bank balances in these accounts totaled $1,764,396, which exceeded FDIC insurance by $990,074.

NOTE 2 - LIQUIDITY AND AVAILABILITY

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the balance sheet date, comprise the following:

Cash and cash equivalents	$ 1,504,885
Operating investments	300,683
Less:	
Payroll liabilities	(1,667)
Total	$ 1,803,901

As part of its liquidity management plan, the foundation invests cash in money market funds and certificates of deposit.

NOTE 3 - FAIR VALUE MEASUREMENTS AND DISCLOSURES

The Foundation may report certain assets at fair value in the financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, the Foundation develops inputs using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset or a liability might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset or liability. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to the Foundation's assessment of the quality, risk, or liquidity profile of the asset or liability. For the year ended July 31, 2025, the Foundation invested in money market accounts and certificates of deposit which are reported at fair value. Money market accounts are immediately available for withdrawal and considered to be cash equivalents. The following table presents assets and liabilities measured at fair value on a recurring basis as of July 31, 2025:

		Fair Value Measurements at Report Date Using		
Description	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Un-observable Inputs (Level 3)
Cash and cash equivalents:				
Money market funds	$ 663,414	$ -	$ -	$ -
Cash in banks	841,471	-	-	-
Investments:				
Certificate of Deposit	300,683	-	300,683	-
Total	$ 1,805,568	$ -	$ 300,683	$ -

NOTE 4 - NET ASSETS WITH DONOR RESTRICTIONS

Net assets were released from donor restrictions by incurring expenses satisfying the restricted purpose or other events specified by the donors as follows for the year ended July 31, 2025:

Subject to Expenditure for Specified Purpose:		
Education Support Programs		
District funding	$	22,595
Other programs		2,500
Total Net Assets Released from Restrictions	$	25,095

NOTE 5 - FUNCTIONALIZED EXPENSES

The financial statements report certain categories of expenses that are attributed to more than one program or supporting function. Therefore, expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include salaries and wages, benefits, payroll taxes, and other personnel costs, which are allocated on the basis of total direct programmatic or functional costs.

NOTE 6 - SUBSEQUENT EVENTS

Management has evaluated all subsequent events from the statement of financial position date of July 31, 2025, through the date the financial statements were available to be issued, November 17, 2025. There were no material subsequent events that required recognition or additional disclosure in the financial statements.
